

A Must-See Experience

FlyOver Chicago

DESIGN:
Envoy

**BLUEWATER
STUDIO**

ENVIRONMENTS + EXHIBITIONS

FlyOver Chicago is a fully immersive, 'Flight Ride' opening at Chicago's Navy Pier in the spring of 2024.

Bluewater Studio was chosen by design team Envoy as the consulting, planning, production, and installation partner for the creation of the 1st and 2nd-floor ticketing and entrance experiences.

Working with Envoy and the FlyOver Attraction team during the design phase, our team provided consultation, structural engineering and budgeting in preparation for the final production and installation work.

We addressed facility integration, material methodology, sampling, prototyping, and production for the Ticketing Touch Displays, Reception Desk, LED Ceiling treatments, Wall Graphics, Dimensional Logos, Entry Portal, and the Large Transparent LED Screen and structural Façade.

Bluewater Studio is pleased to be working with the talented team at Envoy as we together support this exciting new attraction for Navy Pier.
