

This is Who We Are – TSI' NIYUKWALIHÓ•TA

Oneida Nation Museum

A team led by Bluewater Studio, in partnership with Oneida Nation Cultural Heritage, is providing Planning, Design, Fabrication, and Installation for 4900 square feet of interpretive exhibits for an all-new Oneida Nation Museum.

To attract a diverse audience and better resonate with visitors, the new museum will employ a wide range of exhibit techniques, blending history with the present and future to communicate "Who We Are." The exhibitions will shift from a historical perspective to a relevant, modern story deeply rooted in traditions and values.

These concept design images provide a preview into our team's work on this exciting project.
